1. The status of the parent application must be updated on the first page of the specification.
2. Claims 9-12, 15-17, and 20-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 9, line 3 is not understood due to the second occurrence of "a shaft section". It is not clear from the original disclosure as to the inclusion of two shaft sections. As best understood, the second occurrence of "a shaft section" should be --said shaft section--.

In claim 16, "said drive member" lacks antecedent basis.

In claim 17, "said drive member" lacks antecedent basis.

In claim 20, "wherein is also configured to be" is not understood and appears to be grammatically incorrect.

In claim 21, it is not clear if applicant is setting forth a statement of intended use, or if applicant is attempting to claim the combination of a handle, mating pieces, and wrench head. As written, claim 21 appears redundant in view of claim 18.

In claim 22, "on said portion of said shaft" lacks antecedent basis.

3. Claims 1-2, 6-8, and 18-19 are allowed.
4. Claims 9-12, 15-17 and 22 may be given favorable consideration if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
